### THE SPECULATIVE MARKETS.

Intense Excitement in Corn and the Whole World Buying.

THE BEARS ALL KNOCKED OUT.

No Room in the Pit For Traders, and a Switch to Be Made To-day-Wheat Remains Firm-Quotations.

#### CHICAGO PRODUCE MARKET.

CHICAGO, August 10 .- | Special Telegram to the BEE. |-The corn crowd didn't seem to care a continental for the government figures, though they have been talked about incessantly for a week. Traders had later information than the government by ten days, and they were disposed to go it on their own responsibility regardless of the Washington estimate. The bulls are pre-pared to do business on the floor that will not exceed 1,200,000,000 bushels instead of 1,760,000,000 possibility, according to Statistician Dodge's August I averages. The whole world was buying corn to-day and the field news is daily and hourly growing from bad to worse, and private estimates of the damage are getting bigger every minute. Speculative interest in corn has increased to such an extent that it has been found necessary for traders to move into more commodious quarters, and the secre-tary announced this afternoon that tomorrow the wheat and corn crowds would change pits. Superstitious operators look on this step with foreboding. They contend that the wheat pit is a "hood oo," contend that the wheat pit is a "hood oo," and that the corn market is certain to go all to prices the minute the change is made. The excitement in corn was intense and the speculative activity heavy and ustained, the transactions being tremendous from the start to the finish. As on yesterday several of the local leaders attacked the market, but they might as well have attempted to battle Niagara. The country was under it. Property by the million bushel was taken up greedily, and the popular appetite was as keen at the close as at the beginning. Availing themselves of this amazing and iong-continued buoyancy, a great many operators took occasion to unload and take in their profits. Hutchinson starts in regularly every morning to sell out, but the swelling prices of the market tempts him to take hold again and he loads up at higher figures. Packers and cattlemen are among the strongest and staunchest friends of corn. Their reports of the condition of the crops are appalling. The bears who have been fighting the advance, playing for reaction, were driven in to-day in great numbers and with considerable loss. The market opened \( \frac{1}{2} \) cup, with September quoted at 43\( \frac{1}{2} \) c, ond May to 48\( \frac{1}{2} \) c. The range subsequently was within \( \frac{1}{2} \) cof these quotations, which are the best of the day, and the last prices were at the top, \( \frac{1}{2} \) can deal of the conductions. This is a gain of \( \frac{1}{2} \) \( \frac{1}{2} \) cof these quotations, which are the best of the day, and the last prices were at the top, \( \frac{1}{2} \) cof these quotations, which are the best of the day, and the last prices were at the top, \( \frac{1}{2} \) cof these quotations, which are the best of the day, and the last prices were at the top, \( \frac{1}{2} \) cof these quotations. The government report on the crops showed no material change in the condition of spring wheat, but the government estimates on that crop have no weight whatever. The market to-day was active in streaks and dull and that the corn market is certain to go all

weight whatever. The market to-day was active in streaks and dull in streaks, and the general tone was of steadiness. The strength in corn had much to do with the firmness in wheat, but this neglected cereal is not entirely without friends and believers in its merits. The market reviewed on the whole, was dull and featureless. September opened at 50%c, ranged at 60%c60%c low and 60%c high and closed at 60%c60%c low and 60%c high and closed at 71%c, ranged 71%c locotor opened at 71%c, ranged 71%c low and 60%c.

There was a firm and %c higher opening for future deliveries of oats, the market being buillish all through in sympathy with corn. The demand for oats to go to store was less urgent, but that appeared to make no difference with speculative values. There was no excitement to speak of and trading, which was of just moderate volume, was pretty evenly distributed between September, October and May. At the close May oats showed an advance of %c and other less deferred futures %c.

Provision trades had a stronger undertone in next winter's deliveries, which are receiving increased attention. The movement was even buillish and for January pork sustained an actual advance of 80c, lard of 10c, and short ribs of 17%c. Pork for the same month was quoted at the close at \$13.02%, lard at \$6.30, and short ribs at \$6.50. August lard was 2%c under and October 10%c13%c over september. Short ribs for September lard, at atter selling at \$6.52.26%c0, closed the same syesterday, or at \$6.55. August lard was 2%c under and October 10%c13%c over september. Short ribs for September and the substance of the content of the provisions—Weak; pork, \$14.50.

#### CHICAGO LIVE STOCK.

CHICAGO, August 10 .- | Special Telegram to the BEE. j - CATTLE - Trade was slow during the early part of the day, but improved somewhat toward noon. As to prices there was little or no changes when compared with yesterday. On the best solid cornfed steers and on other classes it is difficult to say whether they were lower or not, as such are seiling at the lowest for the year. Late yesterday one or two fancy lots sold as high as \$4.70, yet cattle good enough for anybody or any market in the world are seiling within a range of \$4.40@4.50, while good and useful spock, such as the dressed beef and shipping trade wants, is seiling at \$3.90@4.20 and along there, with common and grass stock at \$3.25@3.75. Native cows and buils are down to the lowest notch. Texans are fairly steady. The stocker and feeder trade presented no new features. Shipping steers, 1350 to 1500 lbs, \$4.60@4.90; 1200 to 1850 lbs, \$3.60@4.20; 950 to 1.200 lbs, \$3.10@3.80; stockers and feeders, \$1.25@3.00; cows, bulls and mixed, \$1.50@2.30. Hoos—Trade was dull, with a down turn such are selling at the lowest for the year.

3.55; cows, \$1.00@2.30.

Hoos—Trade was dull, with a down turn of about 10c on the ordinary run of mixed and about 15c on light. The latter was almost unsalable. Prime heavy sorts were scarce and perhaps only about 5c lower. The pens were full of growers and no buyer on the market here with courage to make a bid or he would have been taken at any price he might name. Rough and common and mixed sold at \$4.90@5.05; fair to best mixed, \$5.15@ sold at \$4.90@5.05; fair to best mixed, \$5.10@6.515; largely at \$5.05; light grassers, \$4.75@4.90.

#### FINANCIAL

NEW YORK, August 10 .- | Special Telegram to the BEE. |-STOCKS .- The stock market was a walting one, and exhibited considerable irregularity. The opening was generally strong, with advances ranging to 1/2 per cent, London was a buyer of Louisville & Nashville and its specialties. The selling was scattered and the principal trading was being by room professionals and had no particular significance. The bulk of operators were inclined to go slow and await the outcome of the government's purchase of 414 per cent bonds. It was expected that \$100,000,000 or more would be offered, but the traders who made such estimates were badly disappointed as only \$5,446,000 were offered at prices ranging from 110 to 1111/4. The small improvement in values, owing to the large estimates of the bonds to be offered, disappeared after the facts became known, and a recession to \*\*(#)\* per cent followed on a majority of the list. Missouri Pacific was purchased by S. V. White and Charley Johnes, and advanced 1% per cent, but broke were cent. The grangers were slightly petter early, but the bad showing made by the government crop report had the depressing effect, despite the St. Paul earnings for the first week in August showed an increase of \$33,000, and the insiders were quoted as saying that the dividends about which much apprehension existed would be maintained. The market during the closing nours became weaker and declined fractionally, but the big bears being still on top and although the close was at inside figures

for a majority of the properties, the prices were a trifle better than yesterday, particularly on Missouri Pacific which was % per cent higher, and Michigan Central 1% per cent, cotton oils % per cent. The business with Chicago houses was small and cut little figure. The total sales were 208,830 shares, against 196,600 shares yesterday. GOVERNMENTS-Government bonds were

Produce. Orders from the country requiring se-lected stock and extra care in packing can not always be filled at the some prices quoted to the local trade for common stock. Wednesday, August 10.

Eggs—The receipts are not heavy but about equal to the demand. The bulk of the stock is moving at 11c.

BUTTER—A slight increase is noticeable in the receipts of the common grades, but choice butter is very scarce. The West Point creamery butter is selling at 23½c and the output of other greameries at 21c. Choice

POULTRY—The market is lower on poultry. It is difficult to obtain over \$2.25 for the best spring chickens, and some of the smaller ones go as low as \$1.75. At this season of tye year when chickens are plenty it is almost impossible to sell the very small ones. The best old fowls are going at \$3.75 @3.00.

POTATOES—The receipts are not heavy and the market is firm. Stocks are moving at 55@60c. The receipts of hogs were liberal but not quite up to yesterday's receipts. The market opened strong at about yesterday's prices and several loads of good heavy hogs sold on that basis. A little later in the morning reports were received from Chicago indicating a decline of 10@15c there. This caused a rapid failing off in prices here and the market continued to grow weaker until the close. The closing prices were fully 10@15c lower on common and mixed stuff. Choice heavy hogs did not feel the decline as sharply on account of being in better demand. There were six loads left unsold when the market closed.

and the market is irm. Stocks are moving at 55,060c.

GENERAL.—The produce markets were very quiet to-day and the receipts of all kinds of produce very light. The market was almost bare of all kinds of California fruits but there will be several cars in during the next two days.

Hogs 300 Sheep 4,400 the next two days.

MELONS—Watermelons were a little more plenty to-day and good stock was moving at \$10.00@15.00 per hundred.

## THE CHICAGO AND

# Western

Short Line

Council Bluffs

The only road to take for Des Moines Marshalltown, Cedar Rapids, Clinton, Dixon, Chicago, Milwaukee and all points east. To the people of Nebraska, Colorado, Wyoming, Utah, Idaho, aevada, Oregon, Washington, and California, it offers superior advantages not possible by any other line.

Among a few of the numerous points of suggriority enjoyed by the patrons of this road Sciween Omaha and Chicago, are its two trains a day of DAY COACHES, which are the finest that human art and ingenuity can create. Its PALAGEE SLEEPING CARS, which are models of comfort and elegance. Its PARLOR DRAW-ING ROOM CARS, unsurpassed by any, and its widely celebrated PALATIAL DINING CARS, the equal of which cannot be found elsewhere At Council Bluffs the trains of the Union Pacific Ry, connect in Union Depot with those of the Chicago & Northwestern Ry. In Chicago the trains of this line make close connection with those of all eastern lines.

For Detroit, Columbus, Indianapolis, Cincinnati, Niagara Falls, Buffalo, Pittsburg, Toronto, Montreal, Boston, New York, Philadelphia, Baltimore, Washington and points in the east, ask for a ticket ria the "NORTHWESTERN."
